**Summer Engineering Intern 2027**

Build real-world engineering experience this summer.

If you're an engineering student who enjoys understanding how things are made, solving technical problems, and working with advanced technology, this internship is designed for you.

At Accu-Precision, we manufacture high-precision components for aerospace, defense, and high-tech industries using advanced CNC machining and modern manufacturing systems. Our shop is clean, climate-controlled, and built for focused, high-quality work.

We operate with discipline and intention. We value clean setups, attention to detail, and doing things right the first time. This is not a theoretical internship. You will be immersed in real production and engineering environments.

**What You'll Experience**

As a Summer Intern, you'll gain exposure across multiple areas of our operation, including:

- CNC Machining
    - Learn how precision parts are produced on advanced CNC equipment
    - Understand setups, tooling, and real-world machining strategies
- Inspection & Quality
    - Work with tight-tolerance parts and precision measurement tools
    - Learn how quality is verified in aerospace-level manufacturing
- Engineering Support
    - Assist with design updates, process improvements, and documentation
    - Gain insight into how engineering decisions translate to production

This is a hands-on internship designed to connect what you've learned in school to how things actually get made.

**What You'll Gain**

- Real exposure to advanced manufacturing environments
- Hands-on experience with CNC machining and inspection processes
- A deeper understanding of how engineering and production work together
- Mentorship from experienced machinists, programmers, and engineers

**Who This Is For**

- Engineering students (Mechanical, Manufacturing, Industrial, or related fields)
- Curious, hands-on learners who want to understand how things work
- Individuals who take pride in precision, quality, and problem-solving

Our culture is grounded in our values:

- Self-Improvement
- Attention to Detail
- Integrity
- Teamwork
- Communication
- Success

If you want more than a typical internship - and you're ready to build real skills in a high-tech manufacturing environment - we'd love to meet you.

**Compensation**: $18.50-24.50/hr

**Benefits**

- Competitive pay
- Retirement plan
- Paid time off
- Medical, Dental, Vision, Life & EAP
- Ongoing training and development
- And more

*Accu-Precision is an equal opportunity employer. All qualified applicants will receive consideration without regard to race, color, age, religion, sex, sexual orientation, gender identity, national origin, disability, or veteran status.*
